

CLIENT PROFILE

My client is spaceman. His work is to do experiments and to explore about the space.

He is so smart and calm. He doesn't like a dirty room. He wants to spend in with his family in a clean house. And he hopes a house which can work hard and is useful to live in space.

PRODUCT DESCRIPTION

The product is a new house.

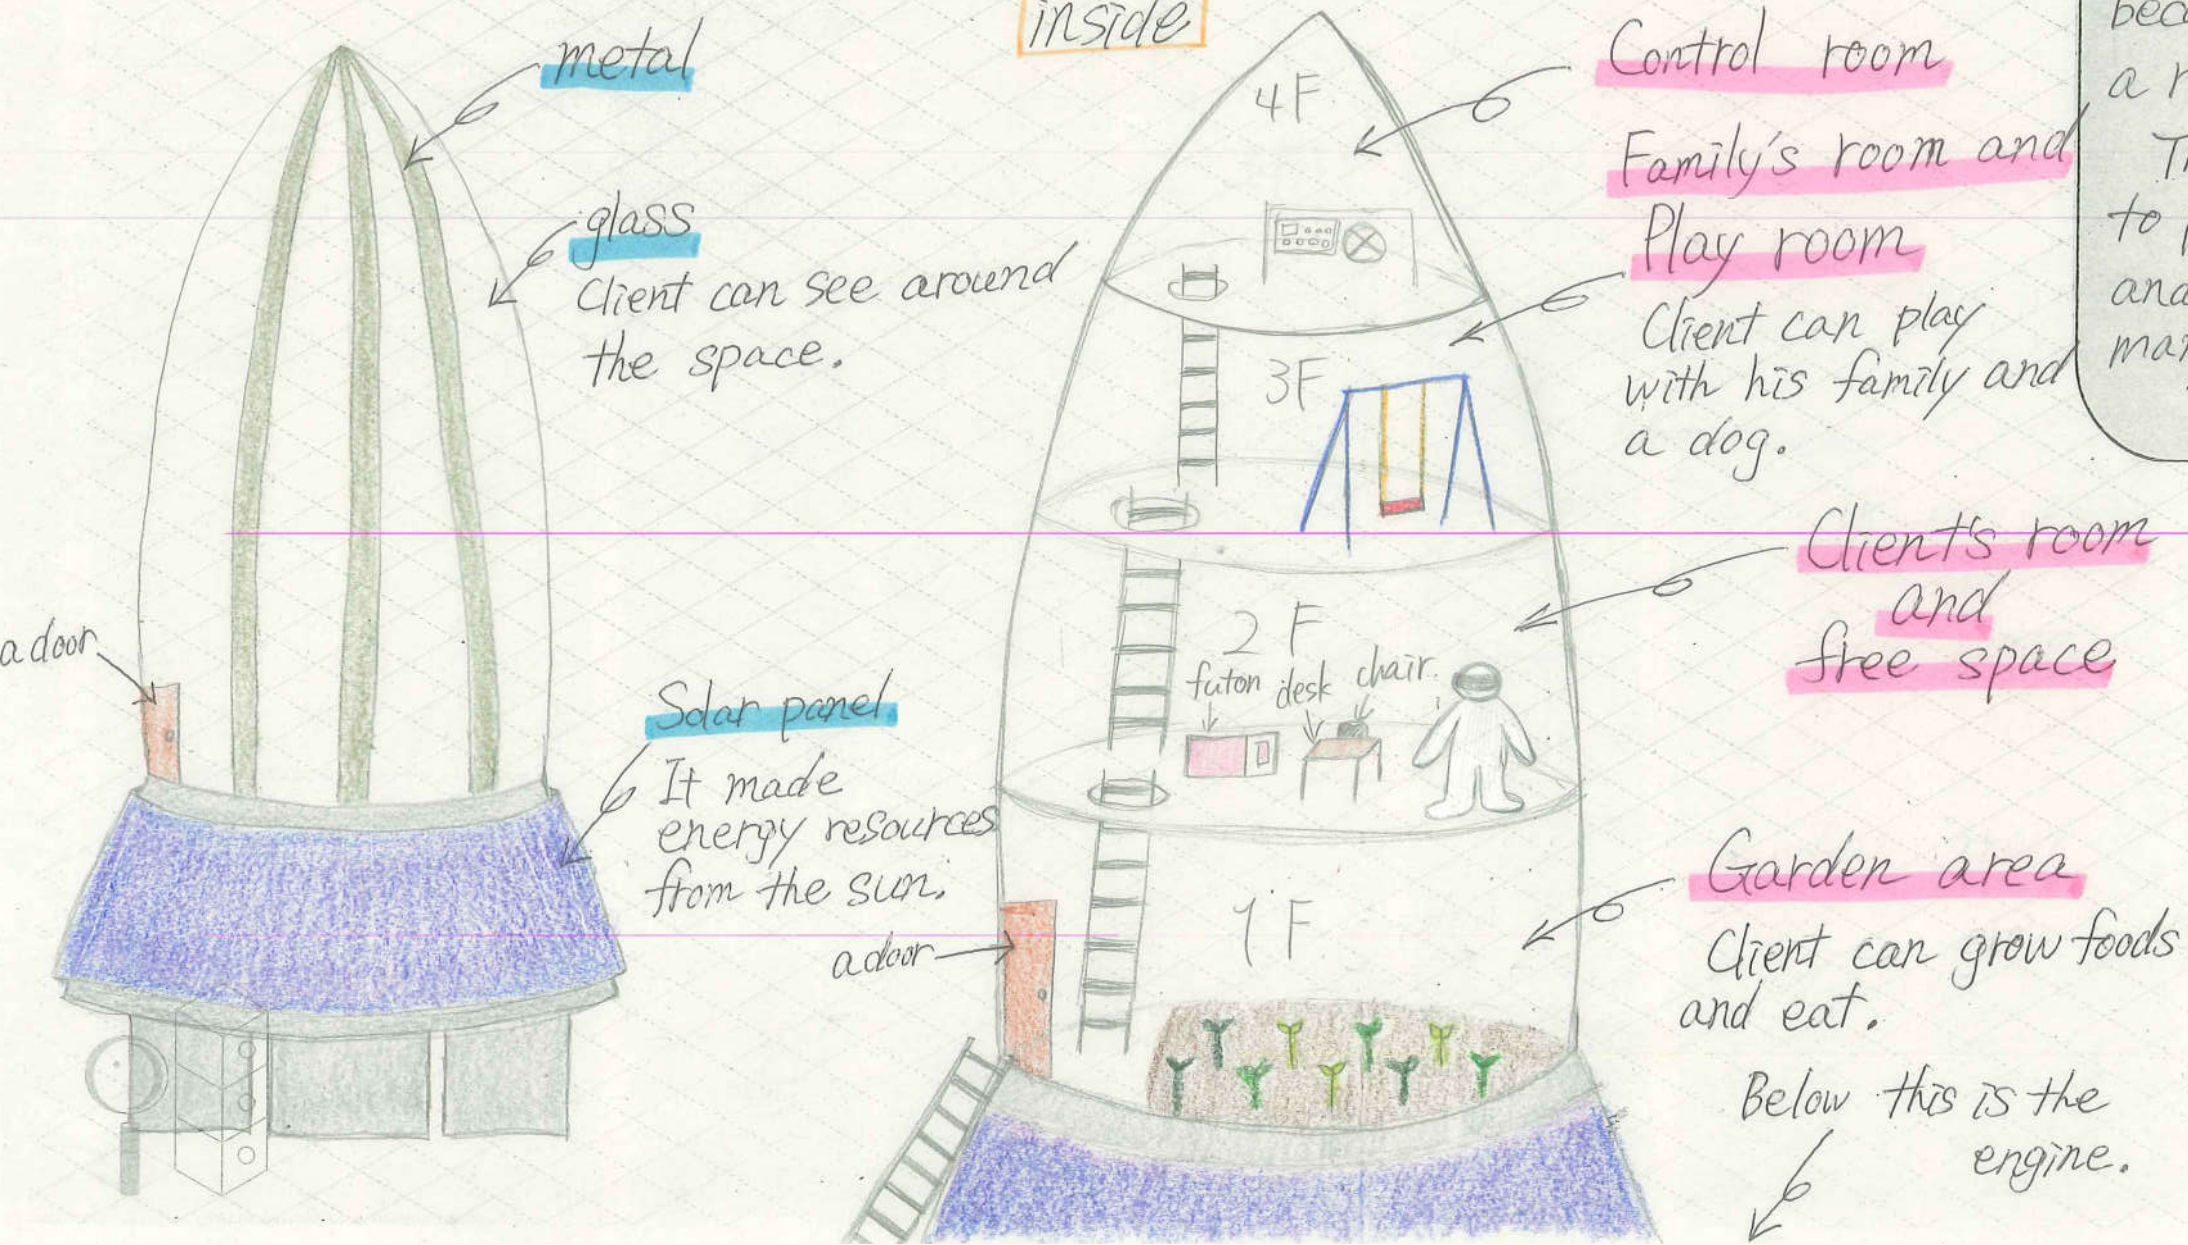

This is strong to endure to move in the space. So it is made of steel, metal and glass.

The house can move easily in space because it becomes a rocket.

There is a garden to play with family and dog. He can grow many usual foods, too.
