

Client Profile
 Bloody Jason is a teen age vampire. He is 17 years old and he goes to high school. He is the leader of a bad students' group. Nobody knows if he is a vampire, but some people in his class thinks he is.
 At school, he is always wearing long clothes because he doesn't want to expose his skin to the sunlight. He is a lazybone, so he is usually sleeping during the classes. He just wants to play games at home. He loves them and he doesn't play any sports. (He's good at e-sports, however!) He doesn't attend the P.E. classes, either. He has to drink human's blood to live, so he goes out to get them at night. His parents don't know about it at all. They think he is always playing games in his dark room. He is a cruel person, so maybe the next target is ... wow.

It is made from shape memory alloy.
