

Client Profile

I created this product for him. He is a soldier. His name is Garry. He is 32 years old. He had no father when he was a child. So his mother has raised him by herself. And he wondered how to do something for her in return for her kindness. Then he came up with an idea. It was to become a soldier and save people. He decided to become a soldier. However becoming a soldier was not so easy. He had a lot of hardship but finally became a soldier. He and his mother was very very glad.

His mother always took many pictures of him, so he likes to take some pictures. And he likes a camera. He has more than 50 cameras. Collecting cameras is his hobby.

He has a tattoo, because soldiers must have a tattoo. But his mother doesn't like a tattoo, so she objected to it. But he got a tattoo.

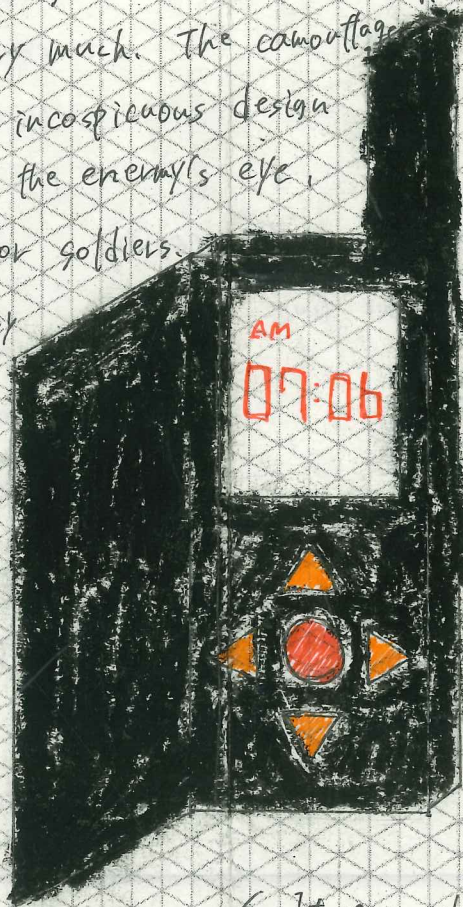

Now, he has a family. He married three years ago. His wife was a classmate in junior high school. She was very beautiful, but Garry was afraid of her because she was very strong. She has been doing judo for a long time. Garry and his wife often fight. And he has two daughters. Their names are Emma and Sara. They are very cute. His family is waiting for him in another country, now. He has a dream. He is working hard to make his dream come true.

BaBaBa Bang!!

< Camouflage pattern >

I think soldiers always wear camouflage clothing. So this time keeper's design is good for them. He likes this very much. The camouflage is created as an inconspicuous design that could hide the enemy's eye. So it's perfect for soldiers.

This product is very popular. I think Garry likes it ♡

< It can do many things >

Of course, you can see the time. This watch does not have only a function. It has some functions.

First, you can play games. Like music games, action games, puzzle games, and so on. You can play most of the games you can play on your smartphone. Garry likes playing action games, because he is a soldier. He is always fighting.

Second, it can change a smartphone. So he can call his friends when he falls on the field. To contact with others is very important for soldiers. They always contact with each other. Moreover, this phone's function is easy to use and reliable.

Third, of course in addition to see the time, this watch is not so big, but the dial is easy to see.

This product is a very good time keeper!!

< It can change the gun >

This time keeper has a very surprising function. It can change the gun. Soldiers must have some weapons because they are surrounded by dangers. No one knows what will happen. All soldiers have guns. This gun is small, 5.0 x 25, but very strong. It's made from titanium. Titanium is one of the gold types. It has the same strength as steel, the weight is half of steel. It's very expensive but convenient to carry and easy to use. The power of this gun is tremendously strong, so you should be careful to use it. Don't mistake.
