

Client Profile

My client is a Tribal Child. Her name is Cathy. She is seven years old. Her tribe uses bow to hunt animals to eat and make clothes, so she is learning archery from her grandfather.

She sometimes lives as a girl. She likes "kawaii" things and wants to collect them.

Usually, they bake meat to have in their life, but selecting fire is very difficult. Then, they often make rare or bitter meat.

If they're able to finish baking meat at the best condition, they don't have to throw bad meat away. And also, they will be happy that they can have more delicious meat.

In addition, the character I designed is used at their own festival. The character is cute, but thrown into fire. Cathy thinks burning kawaii things is sad.
