

Client Profile

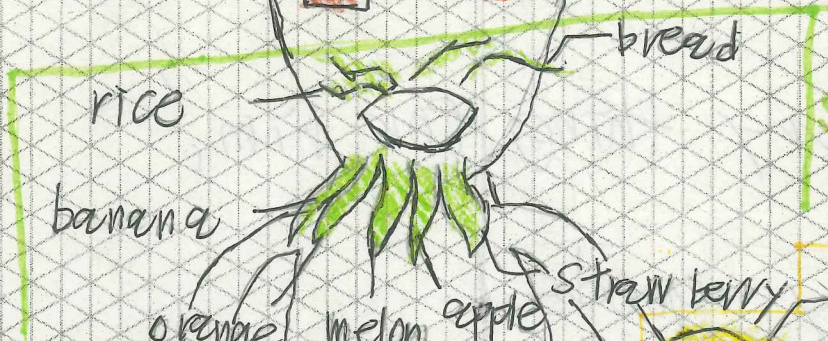

Client is a wizard who is about 180cm tall and 70 years old. He is growing up a strange flower on the top of high rock mountain. It may be very tired for him to climb the mountain because he is a very old person. The flower makes power to magic! So it is necessary for him, and he will have to continue to climb the mountain. He works as a SFX MV staff. He helps actors and actresses with using magic, it's fire, ice, wind, snow, and rain... etc. To use his magic is much cheaper than to use machine to make MV! A lot of SFX MV companies need his magic now! MV staffs have to carry camera, right, mike, stands. They are too heavy for him to carry, and to decrease weight or size is important. If something to make MV are light, he will be happy and will be able to work harder than now. He can't use magic without strange flower. So he use magic only SFX MV, other scene, technology support him! At last, to support him makes good MVs and a lot of people will be happy to see the MVs!
